High Efficiency Right Angle Media Air Cleaner

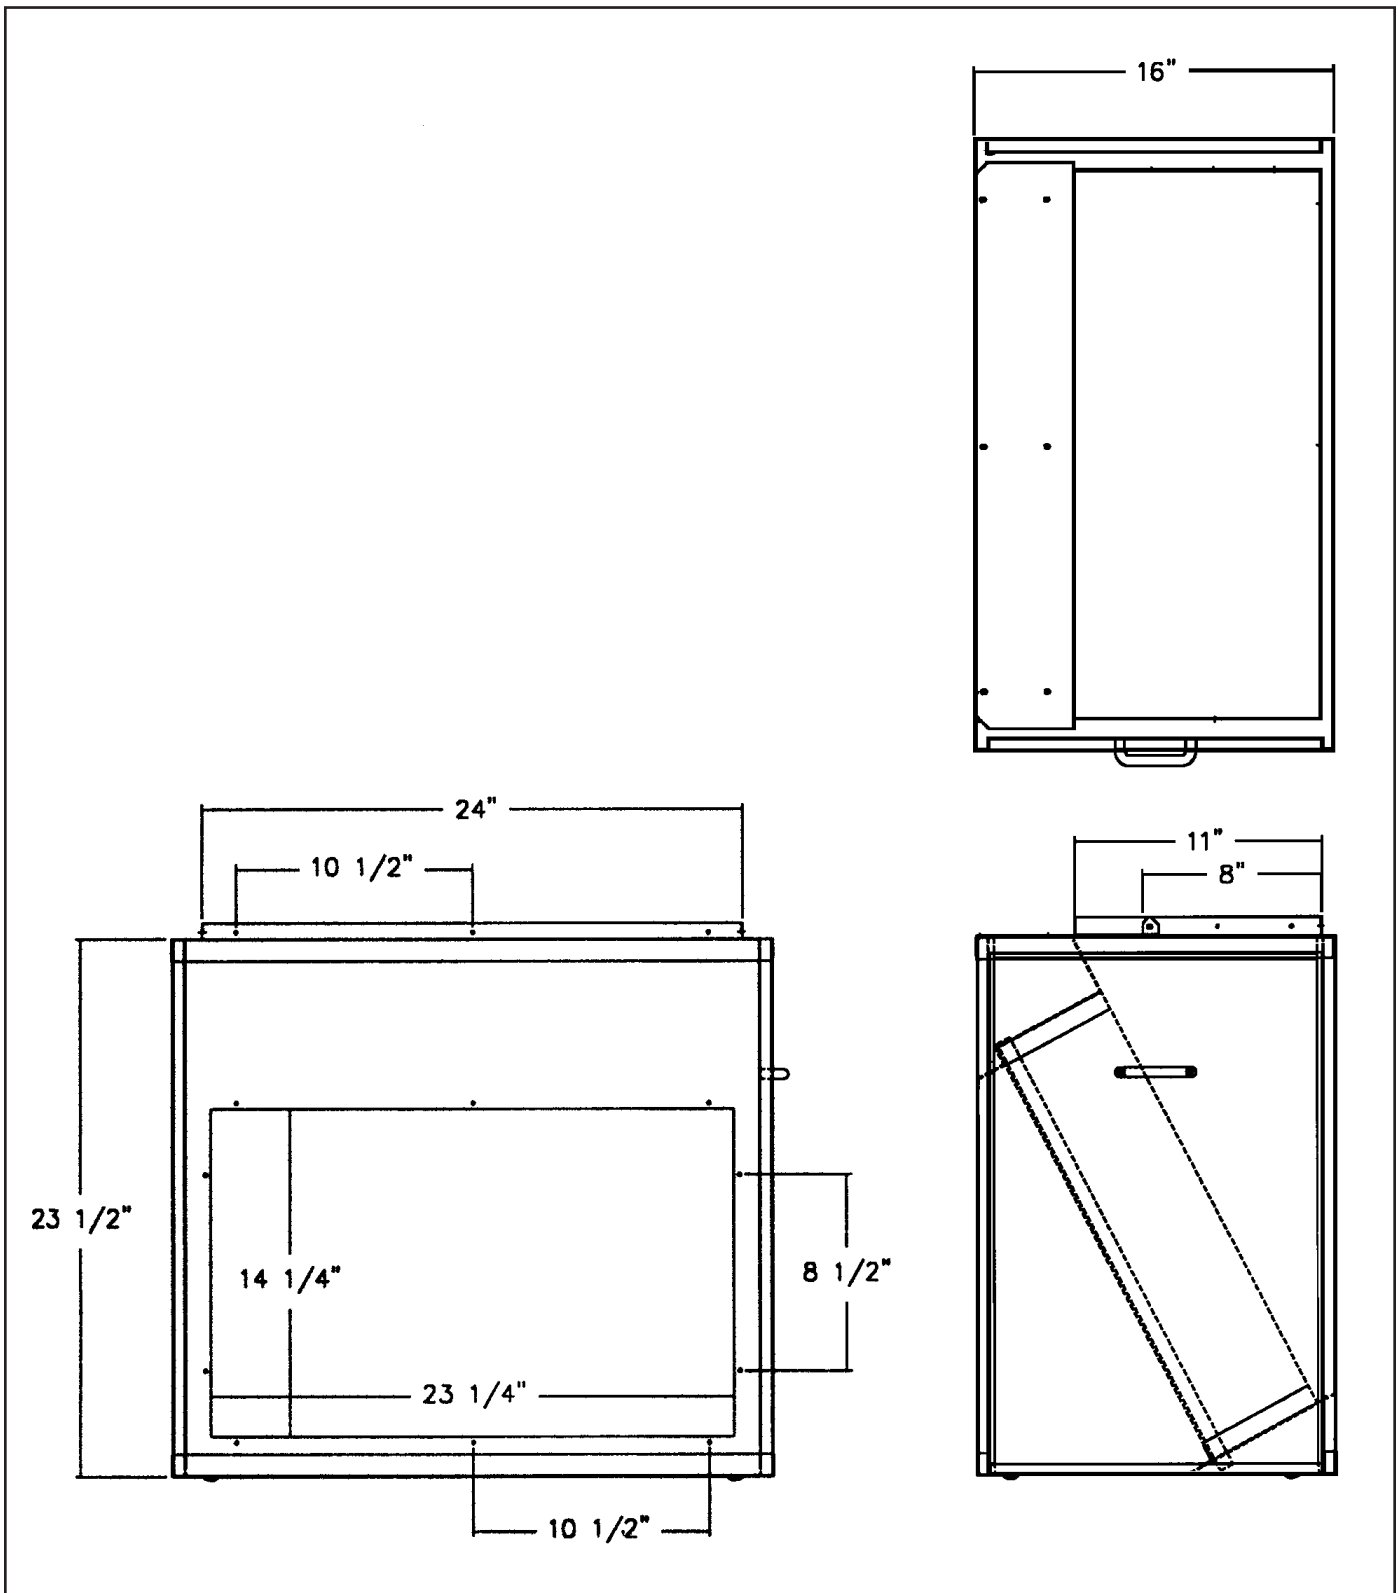

The Nortek Global HVAC High Efficiency Right Angle Media (RAM) Air Cleaner is a space-saving design for vertical installations. It eliminates the need for a 90° duct adapter, reducing installation space by 6-8 inches. Designed to provide even distribution across the media filter. Adjustable inlet duct opening replaces the need for transitions, reducing installation time. The high efficiency MERV 11 filter removes atmospheric and household dust, coal dust, insecticide dust, mites, pollen, mold spores, fungi, bacteria, pet dander, cooking smoke and grease, tobacco smoke particles, and more down to 0.3 micron (1/84,000 of an inch). Lower initial static pressure drop and longer service life than most. Two access doors allow for versatile installation and easy maintenance. Standard limited lifetime warranty.
