Universal HVAC Parts & Accessories

Ultra Violet Germicidal Air Purifier

24 volt operation

Optimum output ballast

Available in 12", 15" or 18"

4 post magnetic base

High UVC output

Extended range ballast

Ballast "thermal" protection

Oxidizing option

5 year comprehensive warranty

ideal for air handlers or fan coil units

maximized UVC output at 24 volts input

multiple models for all applications

guaranteed grip for fast installations

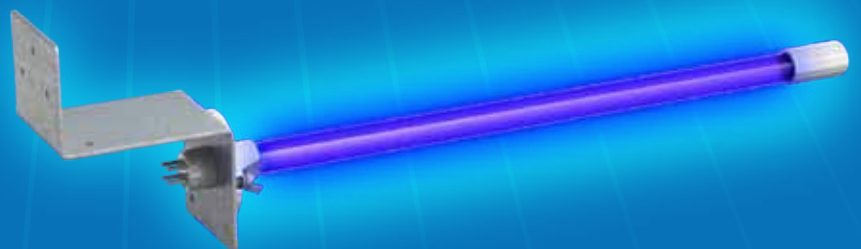

one of the most potent 24 volt UVC systems

compensates for voltage variances

for long life

for additional odor treatment & purification

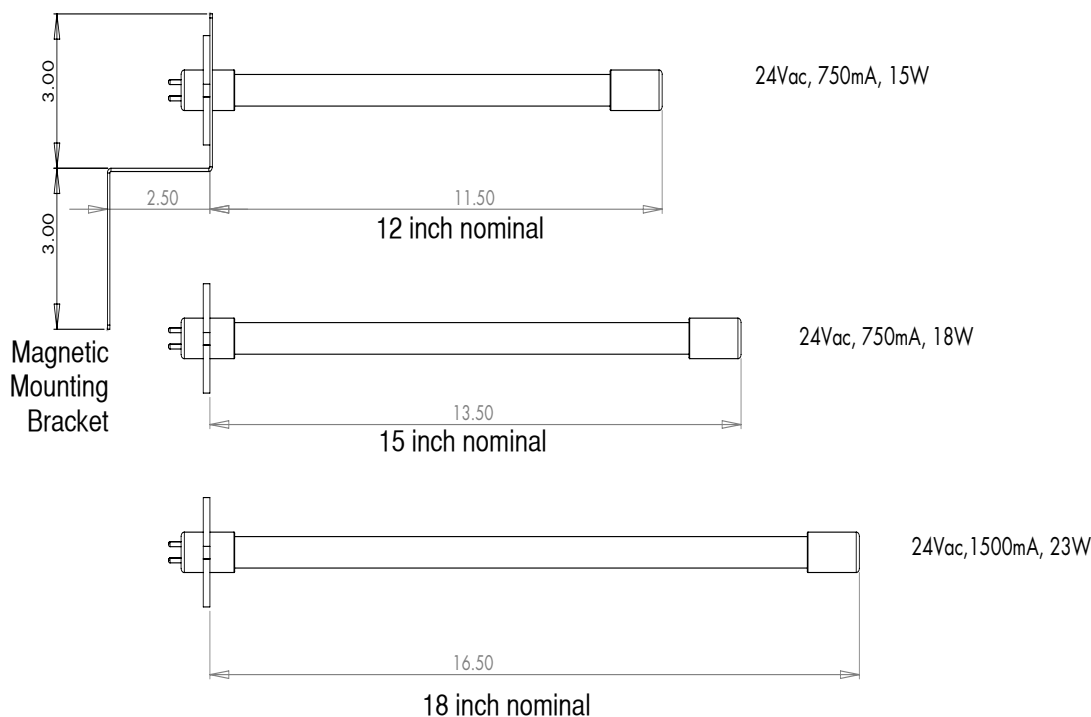

replacement with new

24
VOLT

5 year warranty

SPECIFICATIONS FOR ULTRA VIOLET GERMICIDAL 24 MODEL PURIFIER

ULTRA VIOLET GERMICIDAL 24 MODEL PURIFIER

- The UV unit is to be powered by 24 volts AC or DC.
- All parts are UV & corrosion resistant
- Bases are industry best 4 post Magnetic systems
- Electronic ballast has built in proprietary Variable Voltage Protection for variable speed systems & fluctuating voltages
- Ballasts feature optimized output (100%) at 24 volts input
- Ballast Voltage range: 18 volts to 32 volts - CUL
- High UVC Germicidal intensity for high kill rate
- Efficiency: Up to 99% kill rate on microbials with extended exposure

Ultra Violet 24 Volt PCO Air Cleaner

POWER ELECTRONIC BALLAST	LAMP DIMENSIONS	LAMP LIFE HOURS	ODOR OZ. OPTIONS	LAMP WATTAGE	UV OUTPUT uw/cm ² at 2 1/2 Feet	AMP DRAW
18-32 VAC, 60HZ	12.25" X .75 dia.	9000	√	15	80	.62 A
18-32 VAC, 60HZ	14.25" X .75 dia.	9000	√	18	93	.75 A
18-32 VAC, 60HZ	17.25" X .75 dia.	9000	√	23	145	1.0 A
